

# Emergency Medical Care Program Checklist

Credits outlined below will be applied to your transcript at the time of graduation, assuming that the criteria below is met and paramedic licensure remains valid while you are enrolled.

To be admitted to the program, you must have:	
	Current licensure or certification as a Paramedic.
To be admitted to the EMC Degree Completion program, you will need to complete Core Courses EMC 380 and 382. Completion of these two courses will earn 18 credit hours (EMC 335, 340, 352, 360, and 362.)	
	EMC 380 (4 credit hours)
	EMC 382 (4 credit hours)
To obtain credit for certifications already obtained, you must show proof, via scanned or e-mailed documentation, to receive credit for:	
	<b>ACLS Provider</b> (Advanced Cardiac Life Support) (Course EMC 310 –2 credit hours)
	<b>CPR Provider</b> (Basic Cardiac Life Support with adult, child, and infant with AED) (Course EMC 104 –1 credit hour)
	<b>PALS Provider</b> (Pediatric Advanced Life Support) OR <b>PEPP</b> (Pediatric Education for Prehospital Professionals) ( Course EMC 315 – 1 credit hour)
	<b>PHTLS Provider</b> (Prehospital Trauma Life Support) OR <b>ITLS</b> (International Trauma Life Support) (Course EMC 320 – 3 credit hours)
To obtain credit via testing or Departmental Examination, you will need to follow the departmental testing procedure set by the ECU Testing Office for the following courses:	
	<b>EMC 110 (6 credit hours) Introduction to Emergency Medical Care. (6).</b> EMT Basic Course (if students have adequate credit hours, we can waive this course)
	<b>EMC 200 (2 credit hours) Introduction To Prehospital Advanced Life Support. (2) II, A.</b> Role and responsibilities of EMTF Paramedic, components of EMS systems, medical/legal considerations, and communications in advanced and basic life support settings.
	<b>EMC 205 (1 credit hour) Prehospital Management of OB/GYN Emergencies. (1) I, A.</b> Pathophysiology and advanced level prehospital management of antepartum, parturition, postpartum, and gynecological emergencies. Assessment, care, and transportation of the neonate.
	<b>EMC 215 (1 credit hour) Prehospital Management of Behavioral Emergencies. (1) I, A.</b> Concepts and management of emotional and psychological emergencies applied to prehospital crisis intervention.
	<b>EMC 225 (3 credit hours) Introduction to Pharmacology. (3) I, II, A.</b> Introduction to classification, nature, and uses of medications. Pharmacological agents utilized in prehospital health care setting emphasized.
	<b>EMC 240 (3 credit hours) Introduction to Electrocardiography. (3) I, II, A.</b> Cardiac anatomy, physiology, and electrophysiology related to ECG. Proficient ECG interpretation skills emphasized.
